NO REBELS YET APPEAR AT JUAREZ

(Continued from Page 1.)

ness and few Juarez people are deserting their homes. The soldiers were stationed in the trenches which have been dug along the river bridge, just west of the Santa Fe street bridge, but they were removed at daylight and there was no activity there Thursday morning.

A report was circulated in El Paso Wednesday evening that Col. Landis, commanding the seventh division of federal cavalry, had left Chihuahua to march overland to the relief of Juarez, as Salgado did in the Madroso revolution, but conditions are different now and, as Chihuahua is practically surrounded by rebels, it is thought that the federal commander would find it impossible to get out of Chihuahua without being captured.

Scouts Kept Busy.
Scouting continues in the hills to the west and on the plain to the east of Juarez. Scouts are now being sent down the valley below the race track to watch for any rebels who might approach from the east. The scouts in the hills to the west continue to do their lonely vigils in the arroyos and canyons of the mountains each night and the guards pace back and forth on top of the curried all night long. The race track is to be used as an antient fortification should the rebels attack from the east. The stables are built of adobe and the grandstands of concrete, making ideal fortifications for the use of the federal.

Juarez Is Quiet.
Juarez is more quiet than it has been for many months. All of the stores are open with the exception of Kleinman's curio store at the corner of Comodoro street and Juarez avenue, which is closed on account of the illness of Mrs. Kleinman, who is just recovering from an attack of pneumonia.

Potter's grocery store has remained closed since early in June. Trench digging was not resumed Thursday morning, but soldiers patrolled the trench that had been dug by American army officers, who have seen service in the field, express the opinion that this trench will prove a wonderful defense in the event of an attack. Their experience in Cuba and the Philippines, when they had to drive the Spaniards out of the trenches, demonstrated how difficult that is.

Street Car Traffic Light.
There were more passengers on the street cars to Juarez Thursday than on Wednesday, but traffic was very light and there were few persons standing about the streets or walking to and fro. In front of one of the American saloons on Comodoro street, near the corner of Lerdo avenue, two American "dope" fiends got into a fight. One of them was killed and the other, who was a doctor, was wounded.

No soldiers have gone to Guadalupe. It would be a foolish move, it is believed, as their retreat to the city might be cut off and the city would be minus men that it needs for its defense.

Could Come to This Side.
An American army officer, who has seen service in the field, is a student of tactics, expressed the opinion that it would be foolish for a military standpoint to offer any defense of Juarez in the event of an attack. The garrison could come to this side and abandon the town and from here be sent to Mexico City. It is a unit they might be of some benefit.

Should they remain in Juarez, they have no assurance of food, and they might be attacked again even if they repulse Villa now and the town taken by the rebels.

FEARS RURALES WILL BE KILLED BY REBELS

The federal commander of Guadalupe, arrived in the city Wednesday and telephoned to Gen. Castro for assistance. He said that a number of the rurales were being held by the rebels and he feared that they would be executed unless the town was retaken at once.

The rebels threw a cordon of troops about the town and arrested all who were found with arms in their possession. These are to be executed, the refugees from Guadalupe say.

MEDINA HAS ONLY 150 IN COMMAND

Juan Medina has only 150 rebels in his command, according to advices received at El Paso from Douglas. He has no artillery, but expects to pick up 100 recruits in his march to Guzman, the report said.

MANY STRANGE MEXICANS ARE ON DOWN TOWN STREETS

Down town streets are filled with strange Mexicans, many of them from Juarez, a few are from Guadalupe and others are believed to be recruits who are being sent to join Villa's forces so soon as he appears near the smelter. Many of the strange Mexicans are wearing khaki suits and big hats and need only a rifle and a belt of cartridges to complete the picture.

SMUGGLING SUPPLIES AND AMMUNITION TO REBELS

Ammunition and clothing are being smuggled across the river on the island to the rebels who are now in possession of Guadalupe. The smuggling operations have been going on for several nights and a quantity of supplies have been hidden in the houses near Guadalupe and will be used by the rebels.

CORRESPONDENT "FIRED OUT"

Mexico City, Mex., July 3.—Fitzgerald, a correspondent for a Los Angeles newspaper, has been ordered to leave Mexico under Article 10 of the constitution, which provides expulsion of "pernicious foreigners." Fitzgerald was taken to Veracruz and placed under guard, to be placed aboard a steamer for the United States.

PROGRESSIVES URGE INDUSTRIAL JUSTICE

Herbert Knox Smith Says Benefits of National Wealth Are Not Now Equally Distributed.

Newport, R. I., July 3.—"Conservation and social and industrial justice, called by the party leaders byproducts of progressivism, were discussed at the closing sessions today of the Progressive national conference.

Among the speakers were Gifford Pinchot, former chief of the bureau of forestry; Robert Knapp, former commissioner of corporations, and Oscar S. Strauss, of New York, Progressive candidate for governor of that state last fall.

"The conservation question," Mr. Pinchot said, "lies at the root of every material human problem. It is the problem of shelter and clothes which are anything but natural resources prepared for man's use.

"There are only two great forms of exploitation—the exploitation of the earth by men and the exploitation of men by each other."

Mr. Smith said that the natural resources were one of the central issues in the Progressive advance. "The Progressive program," he said, "demands that the benefits of our natural wealth shall be equally distributed to all citizens. This is not now the case. It is because of fraud, partly because of crime, but mainly because of the mistakes in national policy, we have placed the bulk of our nation's natural wealth in private hands for a nominal price."

THE CRUISE OF THE "PIFFLE!"

(Copyright, 1912, International News Service.)

"Gracious me! Well, I declare! Tut, tut!" These startling expressions, so familiar to all sailors, were uttered by that grizzled old sea fighter, admiral professor Grape Juice, as he observed with astonishment the scene that was being enacted on the parlor floor or gun deck of the dreadnought "Piffle," of which he was commander. A young midshipman named Cadwalader J. Widdelbury, while feeding a pet dove, was taken unawares and severely rebuked by the ship's mascot, a goat called "Knock Out Pete!" "Take that animal and put him down in the basement—I mean the hold—and keep him there till he can behave in a peaceful manner!" cried admiral Juice. Order having been restored the glue club struck up a rollicking song entitled "Peace, Gentle Peace!" "Are the guns loaded with marshallows?" Very well. Then send the enemy a wireless inviting them to attend our sewing society in the cabin this evening!" replied the fearless commander. Suddenly, with a deafening roar, a tremendous—

ROCK PILE MAKES PRISONERS SCARCE

City and County Jails in Tucuman Are Both Empty; Much Street Work Is Done.

Tucuman, N. M., July 3.—The establishing of a rock pile here for city prisoners has effected a total wiping out of prisoners for Tucuman during the last month. Prior to the time of the rock pile daily arrests here of almost a dozen hoboes were made. At present neither the city nor the county jail contains a prisoner. The latter institution having been empty for almost a month.

The force has been at work with the city grader, grading the streets. Second and First streets are being completely leveled. The grading being according to the last ordinance allowing for a five-foot sidewalk and parkway. These two streets are being graded further south than the other streets in this portion of the city to allow of a drive for automobiles and others through the residential district.

The second street will be completed after a month, when the ordinance passed at the last meeting of the city council and which calls for the walks to be built, goes into effect. This ordinance will give South Second street the longest stretch of sidewalk in the city.

The city council has notified the public that the ordinances against fire works being exploded within the city limits and also the use of the downtown streets by bicyclists and roller skaters will be enforced.

J. R. Wells was awarded the contract to feed city prisoners, his bid being 12 cents a meal. The contract went into effect July 1, but there are none to feed.

The tents and other material which were used in the city pest house this summer, have been stored in the city building with the police. The pest house is closed. An excellent sanitary condition exists at present in Tucuman and throughout the entire county little sickness is being reported.

A committee appointed at the last session of the Tucuman city council will examine into the financial condition of the city and will report at the next meeting of the council as to the approximate amount of the city's income during the ensuing fiscal year.

WHISKY DRINKING SHOWS BIG INCREASE

American People Set New Record in Consumption of Liquors, Cigars, Cigarettes and Cheating Tobacco.

Washington, D. C., July 3.—The American people drank more whiskey and beer, smoked more cigars and cigarettes and chewed more tobacco during the fiscal year 1912 than in any other yearly period of the nation's history, according to estimates based upon record breaking internal revenue receipts of the federal government for the 12 months ended June 30.

The drinkers of the country consumed the enormous total of 142,000,000 gallons of whiskey and brandy, an increase of 7,500,000 gallons over the previous year and breaking the former high record of the fiscal year of 1907. Sixty-four million, five hundred thousand barrels of beer flowed down the rivers of the land, a record by more than 1,000,000 barrels.

Smokers puffed into space 7,707,000,000 cigars and 14,200,000,000 cigarettes. This was 217,000,000 cigars and 2,780,000,000 cigarettes more than ever before had been consumed in a single year. Patrons of the pipe smoked 402,200,000 pounds of tobacco, or 3,300,000,000 pounds of the nation's history, according to estimates based upon record breaking internal revenue receipts of the federal government for the 12 months ended June 30.

HAIR CAME OUT IN BUNCHES

Scalp Covered with Dandruff. Scratching Caused Breaking Out. So Irritated Could Not Rest. Cuticura Soap and Ointment Cured.

Route No. 3, Box 20A, Broken Arrow, Okla. — "My trouble began with an itching of the scalp of my head. My scalp at first became covered with flakes of dandruff which caused me to scratch and this caused a breaking out here and there on the scalp. It became so irritated until I could not rest at night and my hair would come out in bunches and become short and rough."

"Everything I used would cause it to grow worse and it continued that way for about three or four years. While reading the paper I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. It proved so good that I decided to get some more. I used them as directed and in two weeks I saw a good effect. Now my hair is longer and looks better than I have ever known it to be. I give all the credit of my cure of scalp trouble to the Cuticura Soap and Ointment." (Signed) Mrs. Ella Sheffield, Nov. 30, 1912.

For plain and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the body and face, to avoid in preventing dandruff, irritation and clogging of the pores. Sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.
